An abstract geometric design on a dark, textured background. The design features several white, radiating lines of varying lengths that originate from a central point, creating a starburst or sunburst effect. These lines are interspersed with small white dots. The overall composition is dynamic and modern, with a strong sense of movement and direction.

Dedication

Serving fourteen years to high school students, Mr. Fred Jennings is one of the key figures in helping seniors and freshmen to attain a better understanding of English in our daily and future lives. A Bachelor of Science Degree was received from Central Michigan University in 1936. In the summer of 1965, he received a federal grant to Stanford University in California, which furthered his knowledge in composition.

We the Senior Class of 1966 would like to extend our appreciation of his kind and considerate help by dedicating the 1966 Centralian to him.
